FEATURES AND BENEFITS

- Premium maintenance-free starting and cycle service power
- 20x more vibration protection* safeguards battery performance over time
- Faster recharging powers more electronics longer
- 2x the cycle life* extends performance and life
- Spillproof design provides added protection for sophisticated electronic equipment
- Compared to conventional designs

Conventional automotive batteries can be extremely intimidated by the power demands of today's vehicles – falling short of delivering critical dependability and performance. Cars, trucks, SUVs, and other passenger vehicles have more electronics than ever before.

Intimidator automotive batteries are especially designed to handle factory installed electronics to anything that plugs in or turns on, and still deliver dependable starting power. With almost **2x the endurance*** in severe service and **2x the cycle life***, these batteries are equipped for the toughest conditions and the most intense electrical power demands.

Intimidator automotive batteries are also ideal for tuner cars or off-road vehicles, offering superior power for high-performance equipment and a high-impact design for rugged, back road adventures.
