**Poly Organic Formula!**

**HEAVY DUTY RED COMMANDER** is a heavy duty formula that is designed to be used in heavy duty diesel and gasoline engines. With a freeze point of -51 degrees, the Commander is the right choice for heavy duty applications. Commander is pre-charged and does not require a SCA package.

**UNIVERSAL GOLD** is a universal formula that mixes with all types of antifreeze it has become very popular over the years and is the most used in the field.

**CONVENTIONAL GREEN** is an old formula that does not mix with all types of antifreeze. It is on the brink of being obsolete since the appearance of the UNIVERSAL GOLD

**ORANGE XL-100** is the newest formulation designed for use in newer vehicles. XL-100 features a new technology O.A.T that is an organic formula designed for O.A.T cooling systems

If you are currently selling specialty antifreeze coolants for ASIAN or EUROPEAN BRAND vehicles, PRIDE Antifreeze products are a great alternative to “inflated price” antifreeze brands.

PRIDE gives you the opportunity to realize better profits with our new specialty products. PRIDE gives you THE quality alternative to products from companies such as BECK-ARNLEY, PENTOSIN, ZEREX, PEAK, OEM, etc.
